## Cape Leeuwin Lighthouse Mainland Australia's Tallest Lighthouse!

The historic Cape Leeuwin Lighthouse is situated at the most south westerly tip of Australia where the Indian and Southern Oceans meet. The lighthouse tower, built from local stone in 1896, stands 56 meters above mean tide level and is mainland Australia's tallest lighthouse. Today the lighthouse still guards one of the world's busiest shipping lanes and remains an important historical and meteorological weather station. In addition to the spectacular scenery and seascapes, Cape Leeuwin is also ideal for wildlife spotting, including whales (June to September).

The Lighthouse and Café are open daily (except Christmas Day).  
**Tours** run every 45 minutes from 9:00am to 4:00pm. Additional tours during holidays.
